EXPLORATION DRILL RIG FLEET

SCHRAMM T450 RIG x 1

This rig is a T450 Schramm mounted on a 8 wheel Volvo carrier with on board 600 cfm x 800 psi compressor coupled with a 1000 cfm x 350 psi auxiliary and a M41 booster giving 1600 cfm x800 psi. The rig is equipped with a dump mast, on board cyclone /splitter and **is capable of drilling 250 mtrs with a 4 ½ “rod string.**

SCHRAMM T64 RIG x 1

The rig is a T64 Schramm mounted on a 8 wheel international truck with on board 900 cfm x 350 psi compressor coupled with a 900 cfm x 350 psi auxiliary and a M41 booster giving 1800 cfm x800 psi. The rig is equipped with a dump mast, on board cyclone, splitter and **is capable of drilling 250 mtrs with a 4 ½ “rod string.**

UNIMOG ROG x 1

The rig is a Heavy duty GMC 150 rig mounted on a Mercedes Unimog 4x4 all terrain truck. It has an onboard 400psi/800cfm IR package. The rig is equipped with a dump mast, upright rod rack, cyclone with splitter and **is capable of drilling 130mtrs with a 4”rod string.**

EXPLORATION DRILL RIG FLEET

NISSAN UD x 1

This rig is a Heavy duty Airdrill, Rab, Air core and RC rig mounted on a Nissan UD 6x6 all terrain truck. Onboard 250psi/600cfm IR package dump mast, upright rod rack and onboard cyclone with splitter.

HYDCO 350 RIG x 1

This rig is a Hydco 350 RC Rig mounted on an 8 x 8 Mercedes wide base truck. It holds a 1250 cfm x 350 psi compressor with a Ingersoll Rand HR2.5, Powered by a Cummins Diesel Qsk 19-750 HP. The rig comes with an on board Hydco 8v92TA 1800/900 booster and is accompanied by a 1100 cfm x 350 psi auxiliary. The rig also has a Sandvick automated rod handler with capability to hold up to 200 mtrs of drill pipe on board and is equipped with a hands free automated breakout system with a wire line for down hole survey, capacity of 400 mtrs x 6 mm non rotating wire rope, heavy duty 2m mast dump feed system with pull back 19,000kg variable, pull down and 12,300kg variable. The rig is equipped with a dump mast, on board cyclone/splitter and is **capable of drilling up to 400mtrs RC.**

TATRA TH75 x 1

This rig is a TH75 drill rig mounted on a Tatra 8x8 truck. The rig is powered by K19 Cummins 660HP, has an onboard Ingersoll Rand 900/350 compressor coupled with a 2x 900 x 350 psi Auxiliary's and a M41 booster giving 1800cfm x 800psi. The rig is equipped with a sandvik automated rod handler, dump mast and is **capable of drilling 500mtrs with a 4 ½ "rod string.**

EXPLORATION DRILL RIG FLEET

KWL 1600 Multi Purpose RIGS x 2

The KWL 1600 H is a powerful and versatile drill rig that can be utilized for a large variety of drilling applications the diamond drill can core up to 2000 meters of NQ , 1350 meters of HQ and 900 meters of PQ this rig is also capable of drilling 450 meters of 4 1/2 inch R/C

This rig is fitted with state of the art KWL R/C rod handler and fitted under the latest MAN 8x 8 truck for all of the hardest access roads and conditions

The rig is fitted with caterpillar CATC13 engine and the mast has a 9 meter pull for easier and quicker rod pulls and has capable pull back of 19.000 kg

LF 90 D Diamond Drill Rigs x 8

The very powerful and extremely versatile LF90 Diamond Drill rig is a Jack up and off, style rig and can be carried by any 14 tonne truck. It has a 7 metre mast with a 6 metre rod pull capability. The engine is a 6.7 litre Cumming Engine and are managed by Cummings Protection Units. The jack off base is run by it's own diesel engine and is completely separate to the drill. The drill is capable of drilling 1000 metres of NQ, 650 metres HQ and 300 metres of PQ. The head is a drive through chuck and is supported by KWL foot clamps and slips to suit all drilling sizes and has a 4 speed funk box.

LF90 Hydraulic Diamond Core Drill

LF90 ON HEAVY DUTY JACK-UP
BASE READY FOR TRANSPORT

- LF90 heavy duty drill rig.
- Depth capacity of 1000m (NQ, NRQHP).
- Hydraulic rod making and breaking.
- High drilling torque for productive drilling at depth.
- Hydraulic, telescopic 6m pull mast for ease of setup.
- Ergonomic, self-contained control panel reduces operator fatigue.

LF90 - THE POWER, PERFORMANCE AND
VERSATILITY TO SUIT AUSTRALIAN CONDITIONS
